

SP **YUKO Grease 158**
Special grease.

Description

Used for lubrication of roller bearings in automotive and tractor electric equipment, needle bearings of cardan joints crosspieces, friction joints of wipers of passenger cars and trucks, other vehicles.

Enabled packing

 Tin 400g

 Tin 800g

 Plastic pail 9kg

 Tin bucket
17,0kg

 Barrel 170kg

Benefits

- Has good anti-wear and anticorrosion properties;
- Effective within extended temperature range;
- Has good mechanical and thermal stability;
- Grease colour serves as indicator;
- Free of lead and other hazardous metals.

Compliance

NLGI 2 |

Typical characteristics

Dropping point, °C, min	170
Penetration at 25°C, mm•10 ⁻⁴ within	275
Colloid stability, % of released oil, max	15
Shear strength at 50°C, Pa, within	210
Critical load (P _K), N, min	617

Temperature range

Produced according to TU U 20.5-31852954-060:2013. This information is reference and it can be changed without a notice.
