

IND **YUKO IGP-30 (HM 46)**
Industrial and hydraulic oil.

Description

Used as power fluid in hydraulic systems of machine equipment, automated lines, presses, for lubrication of high speed transmission gears, low and medium-loaded gearboxes and worm gears, variators, electromagnetic gears and gear clutches, bearing units of slideways and in other units and machinery, requiring oils with improved anti-oxidant and anti-wear properties.

Produced of high-quality base oils with additives.

Enabled packing

 Barrel 200L

 In bulk

Benefits

- Improved reliability of the equipment performance;
- Service life of the oil is 2-4 times longer than oils without additives;
- Wide application in various systems and units of industrial equipment;
- Use of special additives provides low temperature pour point and fluidity.

Compliance

ISO 46 | ISO HM |

Typical characteristics

Kinematic viscosity at 40°C, mm ² /s	46
Density at 20°C, kg/m ³	875
Viscosity index	95
Acid index, mg KOH/g	0.45
Flash point in open crucible, °C	210
Pour point, °C	-15

Temperature range

Produced according to TU U 23.2-31852954-001-2003. This information is reference and it can be changed without a notice. This article is from 01/09/2014, it replaces all the early published descriptions of the product.
