

IND **YUKO PS-28**
Oil for rolling mills.

Description

Intended for gearboxes and heavy-loaded units of rolling-mill machinery, for the equipment of ironworks, steelworks, tyre works and other plants, and other enterprises, where oils for rolling mills are used.

Produced of high-quality base oils with additives.

Enabled packing

 Barrel 200L

 In bulk

Benefits

- Ensures stability of sustaining counter pressure of oil film;
- Superior lubricating properties provide the required protection level for the working surfaces;
- Good thermal-oxidative stability allow using the oil in circulation systems of equipment for a long period.

Compliance

ISO 460 |

Typical characteristics

Kinematic viscosity at 100°C, mm ² /s	28.5
Density at 20°C, kg/m ³	892
Viscosity index	92
Acid index, mg KOH/g	0,005
Flash point in open crucible, °C	260
Pour point, °C	-10

Temperature range

Produced according to GOST 12672-77. This information is reference and it can be changed without a notice. This article is from 01/09/2014, it replaces all the early published descriptions of the product.
