

SP **YUKO TM-4 80W-90**

Universal all-season transmission oil.

Description

Universal all-season transmission oil for lubrication of cylindrical, conical, bevel spiral and hypoid gears operating at contact voltages up to 3000 MPa and temperature of oil in the amount up to 150 °C.

Enabled packing

 Tin bucket 20L

 Barrel 200L

 In bulk

Benefits

- consistently highly effective under different operating conditions over a long period of time;
- has good foaming and corrosion protection, compatibility with seal materials;
- high level of protection against wear in a wide temperature range;
- significantly reduces wear of the gears and bearings;
- a modern package of extreme pressure additives provides a high level of protection for various loads, including percussion.

Compliance

SAE 80W-90 | API GL4 |

Typical characteristics

Kinematic viscosity at 100 °C, mm ² /c	15.0
Density at 20 °C, kg/m ³	891
Viscosity index	95
Flash point in open crucible, °C	225
Temperature of hardening, °C	-23

Temperature range

Produced according to TU U 23.2-31852954-013-2003. This information is reference and it can be changed without a notice. This article is from 01/09/2014, it replaces all the early published descriptions of the product.
