

YUKO Тп-22 (ISO 32)

Turbine oil

Description

Petroleum oil with antioxidant, anticorrosive and other additives.

Used for lubrication of bearings and auxiliary mechanisms of turbine units (steam and gas turbines, turbocompressor machines, hydraulic turbines, ship steam turbine units and other equipment), as well as for working in the control systems of these machines as hydraulic fluid.

Enabled packing

 Barrel 200L

 In bulk

Benefits

- Excellent antioxidant properties provide a long service life of the oil;
- High demulsifying properties allow the use of oil even in flood conditions;
- Longer service life of equipment due to anti-wear and anti-corrosion additives.

Compliance

ISO 32 |

Typical characteristics

Kinematic viscosity at 40°C, mm ² /s	28,8-35,2
Density at 20°C, kg/m ³	875
Viscosity index, min	90
Acid index, mg KOH/g, max	0,1
Flash point in open crucible, °C, min	186
Pour point, °C	-15

Temperature range

Produced according to GOST 9972-74. This information is reference and it can be changed without a notice.
